Set up account alerts

Last Modified on 11/23/2026 1:12 pm EST

Alerts are one of the easiest ways to catch fraud early and avoid overdrafts.

Set up alerts

1. Sign in and select **Profile**, then **Alerts**.
2. Choose an alert type and how you want to receive it: text, email or push notification.
3. Set the amount, if the alert has one, and select **Save**.

Alerts we recommend

Alert	Why it helps
Balance below an amount you choose	Avoid overdrafts and declined payments
Debit card purchase over $100	Spot unauthorized purchases right away
Card used online or outside the US	Catch card-not-present fraud
Password or contact info changed	Know immediately if someone else gets into your account
Direct deposit received	Know when payday has arrived
