Card controls and travel

Last Modified on 11/23/2026 1:13 pm EST

Card controls in the Featherstone Mobile app put you in charge of how and where your card works.

- **Lock and unlock** your card instantly
- **Turn off** online, international or ATM use
- **Set limits** for single purchases or monthly spending
- **Get alerts** whenever your card is used

Traveling?

You no longer need to call us before you travel. Instead, open **Card controls** and add a travel plan with your dates and destinations. Make sure international use is turned on if you're leaving the country.

> Pack a backup: bring a second card from a different account, and save our 24-hour number, (555) 014-3300, in your phone.
